

To the village residents,

Terrorist acts and public disorder have recently been carried out in your village and the surroundings that have affected security in the area.

Since your area of residence is notorious for acts of violence and terrorism, in the course of the recent period of time, it was decided to take a number of measures to improve intelligence gathering to intercept illegitimate activities and foil terrorism.

These operations will continue based on the military commander's assessment of the situation, and as long as the phenomena of violence and terrorism in the area of your village persist.
